

SrikanthBabu Yerragunta

SAP S/4HANA MM Consultant | Sourcing & Procurement | SAP Ariba Procurement | Enterprise Transformation | DACH

Jägerstrasse, 40231 Düsseldorf, Germany | +49 15219120330 | Srikanth.Yerragunta@gmail.com | linkedin.com/in/srikanthyerragunta/ | github.com/SrikanthYerragunta

PROFESSIONAL SUMMARY & VALUE PROPOSITION

SAP S/4HANA MM Consultant with hands-on configuration experience across P2P, Inventory Management, Valuation, Material Ledger, OBYC, MRP, and Special Procurement. Completed a fully documented end-to-end S/4HANA MM implementation for a manufacturing scenario aligned with SAP Best Practices. Practical warehouse operations exposure at Amazon strengthens real-world understanding of goods movements, inventory control, stock accuracy, bin management, and supply chain execution. Complemented by SAP Ariba Buying & Invoicing, Guided Buying, approval workflows, and SAP Joule AI Copilot awareness. 15+ years of enterprise client relations including 7+ years of DACH client engagement, supporting SAP transformation, procurement modernization, and cross-functional alignment. Domain and industry expertise across Manufacturing, Automobile, Retail & CPG, and Healthcare.

KEY OPERATIONAL STRENGTHS:

- Business Process Understanding:** Strong grasp of procurement, supply chain, and warehouse workflows from real operational exposure, enabling meaningful collaboration with SAP functional teams and accurate interpretation of business requirements.
- Stakeholder Coordination:** Experience aligning procurement, operations, and IT stakeholders during enterprise engagements, ensuring clarity of requirements and smooth communication across teams.
- Supplier Lifecycle & Procurement Governance:** Practical understanding of enterprise supplier onboarding, compliance checks, and procurement documentation from working as a registered supplier/reseller with TD SYNnex, Volkswagen Group, AWS, Microsoft, Salesforce, and Creatio.
- RFP & Commercial Documentation:** Hands-on experience preparing RFP responses, quotations, and commercial structures, providing strong insight into buyer-supplier interactions and procurement decision cycles.
- Cross-Functional Collaboration:** Ability to work effectively with procurement, supply chain, finance, and operations teams during SAP transformation engagements, supporting integration readiness and process alignment.

CORE SAP MM COMPETENCIES

Procure-to-Pay (P2P)	PR, RFQ, Quotation Comparison, PO, GR/GI (MIGO), Invoice Verification (MIRO), three-way match
Inventory Management	Stock Transfers, Reservations, Physical Inventory, Movement Types, Cycle Counting
Material Valuation	Pricing Procedures, Condition Techniques, Split Valuation, Batch Management, Material Ledger, Actual Costing
Account Determination	OBYC Automatic Account Posting, GR/IR Clearing, FI-MM Integration, Chart of Accounts
Special Procurement	Subcontracting, Consignment (MRKO), Stock Transport Orders (STO), Scheduling Agreements
SAP Ariba & Joule	Ariba Buying & Invoicing, Guided Buying, Catalogue Management, Requisitioning, PO Management, Approval Workflows, Invoice Reconciliation; SAP Joule AI Copilot
S/4HANA Business Processes	Source-to-Pay, Procure-to-Pay, Inventory Management, Supplier Collaboration, Cross-Functional Process Integration
Enterprise Structure	Company Code, Plant, Storage Location, Purchase Organization & Group
Master Data	Material Master, Vendor Business Partner, Info Records, Source Lists
Release Strategies	Classification-based Approval Workflows, Flexible Workflow, SAP Fiori Manage Workflows
Cross-Module Integration	MM-FI, MM-SD (Third-Party Orders), MM-PP (MRP/BOM Planning)
SAP Fiori	Manage POs, Create PR, Post Goods Movement, Inventory Overview, Ariba Network integration apps
Support & Troubleshooting	L2/L3: GR/IR mismatches, pricing errors, release strategy failures, invoice blocks
Methodology	SAP Activate, SAP Best Practices, Requirements Gathering, Process Mapping

SAP S/4HANA MM IMPLEMENTATION PROJECT

Manufacturing Company Scenario (Portfolio Project) - Comprehensive end-to-end SAP S/4HANA MM implementation in a structured SAP environment based on real-world manufacturing scenarios and SAP Best Practices.

- Designed full **enterprise structure**: Company Code, 3 Plants (Düsseldorf, Dortmund, Stuttgart), storage locations, purchasing org/group
- Configured supplier master data, purchasing info records and source lists across ROH, HALB and FERT material types.
- Set up purchasing document types, number ranges, item categories, and account assignment categories.
- Executed complete **P2P cycle** including RFQ comparison, PO creation, GR (101), MIRO three-way match

- Built **custom pricing procedure (ZDM01)** with gross price, discounts, freight, and net value
- Implemented **4-level PO release strategy** using classification-based workflow
- Activated **Material Ledger and actual costing** across all plants with EUR and USD parallel currencies
- Configured **OBYC** account determination aligned to valuation classes.
- Set up **MRP Live** with reorder point planning, PIRs, and auto-PO conversion (ME59N)
- Implemented **special procurement**: STO, consignment (MRKO), subcontracting with BOM (541/543)
- Configured **batch management and split valuation** for 3 quality grades
- Executed **MM-PP integration** for MRP-driven procurement with BOM-based planning.
- Completed full **physical inventory cycle** (MI01 → MI04 → MI20 → MI07) with OBYC INV postings
- Documented **L2/L3 troubleshooting**: GR/IR mismatches, release blocks, pricing errors, invoice blocks

Full documentation is available on LinkedIn Featured section and GitHub portfolio.

SAP LEARNING – BUSINESS PROCESSES & PLATFORM KNOWLEDGE

- **S/4HANA Procurement Processes** — Understanding of enterprise structure, material master, supplier master (BP), purchasing info records, valuation concepts, and end-to-end P2P processes for stock and consumable materials.
- **Inventory Management Fundamentals** — Knowledge of physical inventory, movement types, stock postings, and procurement-driven inventory behaviour in S/4HANA.
- **Automated & Self-Service Procurement** — Awareness of automated PO creation, source determination, MRP-triggered purchasing, and self-service requisition flows.
- **SAP Ariba Procurement** — Familiarity with Ariba Buying & Invoicing, Guided Buying, catalogue purchasing, approval workflows, receiving, invoicing, and invoice reconciliation.
- **SAP Joule AI Copilot** — Exposure to conversational procurement assistance within Ariba, supporting navigation, transactional queries, and procurement insights.
- **Reporting & Analytics** — Understanding of procurement dashboards, document tracking, and operational reporting in S/4HANA.

SAP Certifications & Learning

- SAP Certified Associate – S/4HANA Sourcing & Procurement (C_TS452_2601) – In Progress
- SAP Ariba Procurement Overview incl. SAP Joule – SAP Learning
- Business Processes in SAP S/4HANA Sourcing & Procurement – SAP Learning Hub
- Inventory Management & Physical Inventory in SAP S/4HANA – SAP Learning Hub
- Purchasing in SAP S/4HANA – SAP Learning Hub
- S/4HANA Sourcing & Procurement – Croma Campus (NASSCOM Certified Provider)

Cloud & Technology

- AWS Cloud Practitioner Essentials
- AWS Generative AI Essentials
- Microsoft Azure – Data & AI Fundamentals
- Microsoft Cloud Adoption Framework for Azure
- Tricentis TOSCA – Platform Introduction

PROFESSIONAL EXPERIENCE

Warehouse Operations & Supply Chain Process

Sep 2024 – Present

Amazon Logistik | Mönchengladbach, Germany

- Pursued hands-on warehouse operations to ground SAP MM configuration knowledge in real-world logistics practice.
- Gained direct experience across inbound (receiving) and outbound (order fulfilment) operations, building practical fluency in Goods Receipt, Goods Issue, stock movements, cycle counting, bin accuracy, and storage location management.
- Developed functional understanding of how real warehouse operations including plant structures, storage locations, bin management, batch tracking and movement type logic translate directly to SAP MM enterprise structure, master data and inventory configuration.
- Built practical awareness of WMS to ERP integration requirements in high-volume distribution environments, informing ability to configure and validate procurement and inventory processes in SAP MM.

Founder & Managing Director
SNTechSales Solutions GmbH | Düsseldorf, Germany

Sep 2023 – Nov 2024

- Built the company from zero: personally handled legal formation, commercial contracts, supplier onboarding RFPs and all partner documentation, with no legal or admin support.
- Secured and managed technology partnerships independently: AWS partner programme, Microsoft MSP accreditation, TD SYNnex authorized reseller agreement, Salesforce and Creatio partnerships.
- Achieved Volkswagen Group supplier registration: a rigorous compliance and quality documentation process that required me to navigate VW's procurement standards end-to-end without external support.
- Operated as an authorized TD SYNnex reseller, managing sourcing, quoting and RFP responses via supplier portals for public sector volume procurement, gaining firsthand experience of both vendor and buyer sides of the procurement cycle.
- Delivered a back-office automation PoC for a large asset management client: defined the solution, assembled an offshore team, selected LLM and no-code tooling, managed delivery and presented the working PoC to the client from brief to outcome.

Senior Manager, Client Services
Nous Infosystems | Düsseldorf, Germany

Jan 2020 – Aug 2023

- Account Lead & Primary Relationship Partner for DACH enterprise clients undergoing SAP S/4HANA transformations, procurement modernization, and digital transformation programs, managing stakeholder alignment across business, IT, delivery teams, and technology partners.
- Supported a global retailer's SAP S/4HANA transformation covering 150+ interfaces across procurement and supply chain processes, coordinating stakeholder alignment, testing validation, and integration readiness while resolving delivery bottlenecks including test data gaps, access delays, and cross-module dependencies to protect go-live timelines.
- Governed a 20+ member onsite/offshore team across critical testing and go-live phases, managing delivery governance and risks across procurement, supply chain, and cross-module workstreams.
- Managed multi-tier governance cadences including daily delivery syncs, weekly project reviews, and monthly executive steering meetings with client leadership.
- Led RFP analysis and proposal development for SAP S/4HANA/ECC transformation initiatives, procurement modernization, cloud, data, and automation solutions.
- Managed technology ecosystem relationships with Microsoft, Salesforce, Tricentis, and TD SYNnex, supporting SAP transformation initiatives and enterprise solution adoption.
- Supported enterprise transformation initiatives including AI/ML predictive maintenance and data migration pilots for a €20B European industrial manufacturer.

ERP & Technology Consulting — Various Roles
Axiom Software Solutions | OSI Digital | Hitachi Consulting | Innominds | Germany - India - USA

May 2009 – Dec 2019

- Delivered ERP/IT support, requirements analysis, functional testing, and QA across US and European engagements
- Built foundations in SAP ECC, supply chain processes and enterprise systems over a 10-year consulting career

EDUCATION

Executive MBA
Indian School of Business Management & Administration | Hyderabad, India

2012

Bachelor of Engineering — Electronics & Communication
Periyar University | Salem, India

2003

LANGUAGES & WORK AUTHORISATION
